SHIMA MOUSAVIPOUR

ABOUT MIRAS STUDIO

Founded by Shima Mousavipour and Sara Ma'ash, both with Master's degrees in Architecture, Miras Architectural Group has grown to become a reputable brand in architectural design and execution in Iran and international markets, including Iraq and Turkey, after more than a decade of professional activity.

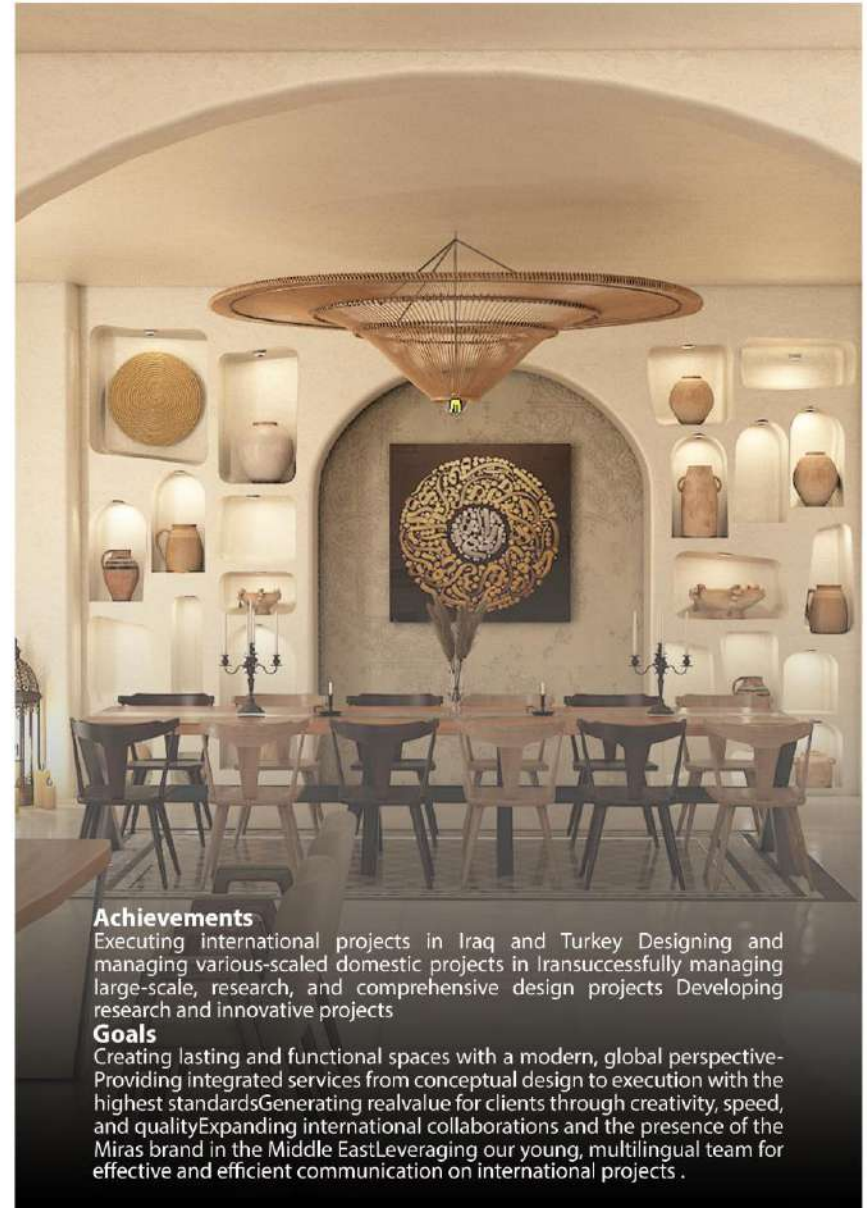

Our young, creative, and skilled team is proficient in three languages: English, Arabic, and Turkish—and utilizes modern methodologies to deliver precise, cohesive, and professional outputs in an optimal timeframe. In its journey of growth and development, Miras is committed to creating valuable, lasting, and innovative spaces that go beyond a simple design to provide a distinct and sustainable experience for both clients and users.

Sara Ma'ash is an architect and interior designer, actively working in the fields of architecture and interior design in Iran, Turkey, and Iraq. She completed her Bachelor's and Master's degrees in Architecture, as well as an MBA, in Iran. Subsequently, she pursued her professional career with a focus on design and architecture, taking specialized interior design courses in Istanbul and an online interior design course under the supervision of the reputable Erin Design Group in California.

Im Shima Mousavipour, an architect, and the founder of the Miras brand, holding a Master's degree in Architecture. For over a decade, I've been continuously active in the fields of design, supervision, and execution. My experience in international projects has given me a multidimensional and global perspective on my professional path. My proficiency in English and Turkish has allowed me to introduce Miras as a leading brand in contemporary architecture—a brand that has built its authenticity on the foundation of innovation, value creation, and durability.

Achievements

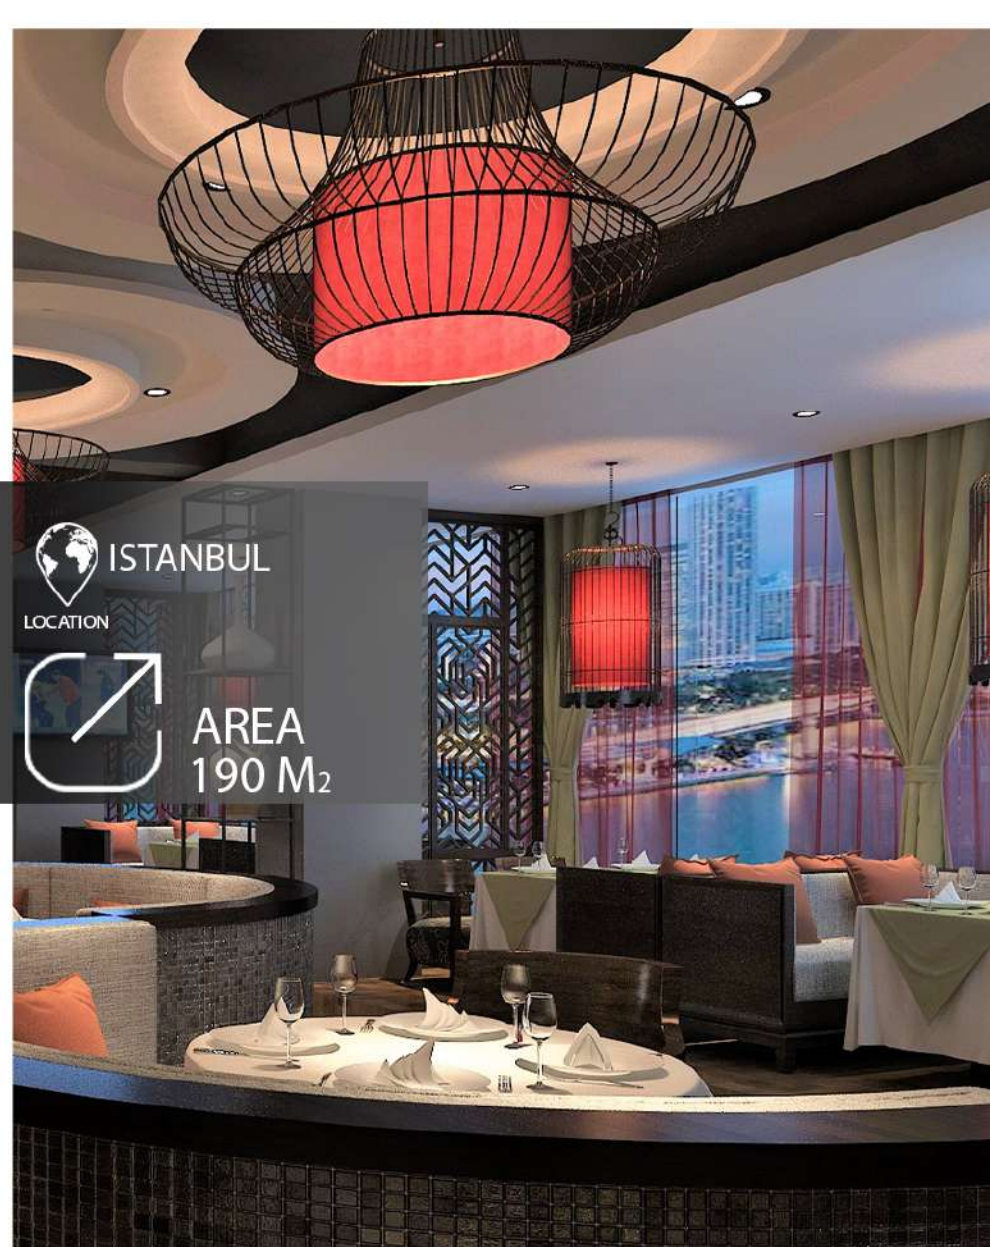

Executing international projects in Iraq and Turkey
Designing and managing various-scaled domestic projects in Iran
Successfully managing large-scale, research, and comprehensive design projects
Developing research and innovative projects

Goals

Creating lasting and functional spaces with a modern, global perspective
Providing integrated services from conceptual design to execution with the highest standards
Generating real value for clients through creativity, speed, and quality
Expanding international collaborations and the presence of the Miras brand in the Middle East
Leveraging our young, multilingual team for effective and efficient communication on international projects.

COFFEE SHOP AND RESTAURANT PROJECTS

NARGAHVE CAFE AND RESTAURANT PROJECT

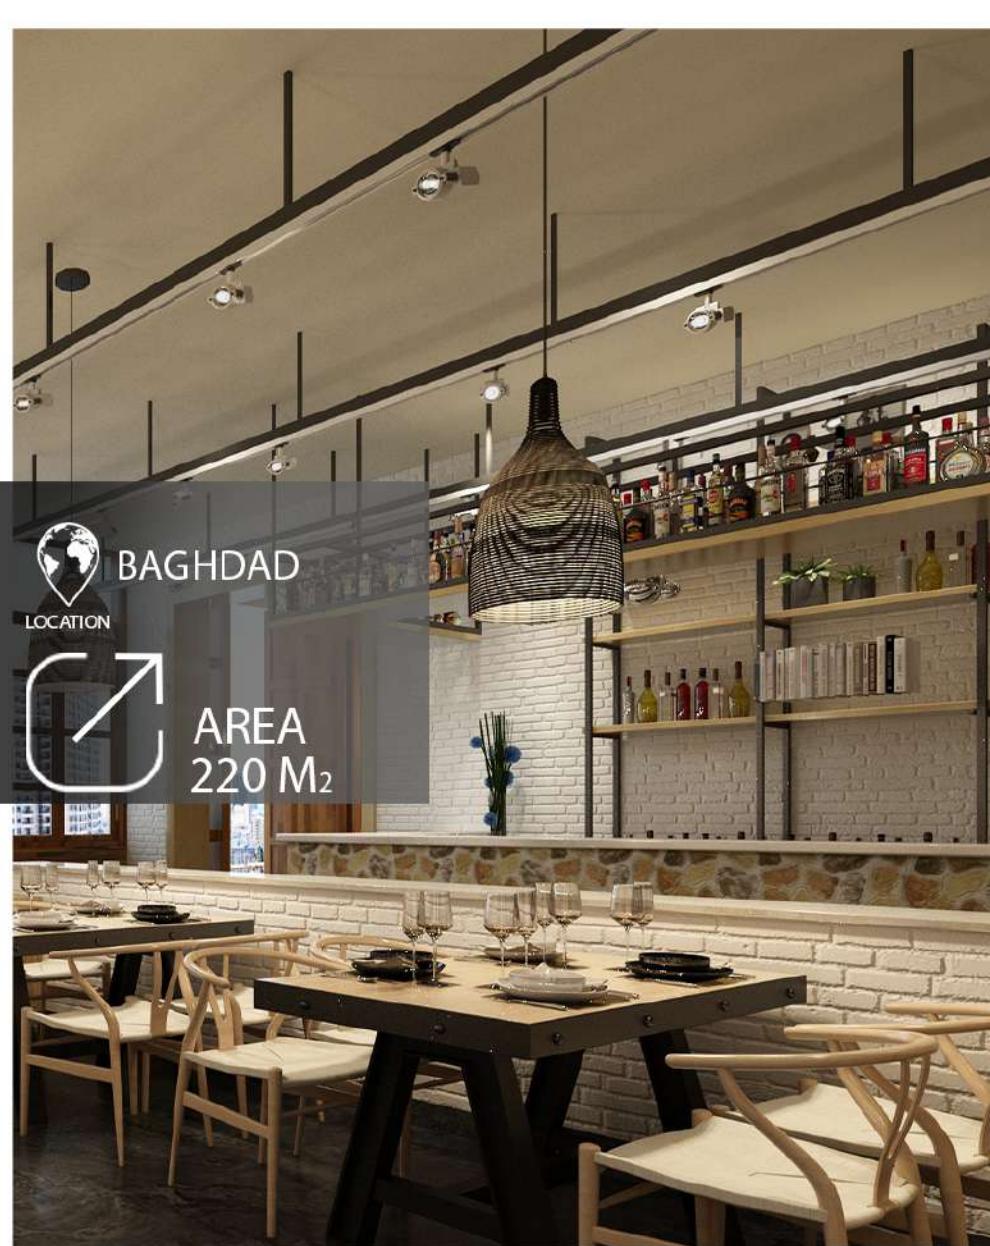

ABOUT PROJECT

In the heart of Istanbul, Nargahve Cafe & Restaurant stands out with its unique design and a striking black and red color palette, creating a distinct and youthful ambiance. The use of curved furniture not only adds visual appeal but also provides a comfortable level of privacy for families and friends. The combination of modern lighting and warm, energetic colors crafts a cozy and intimate environment, offering guests a unique experience of both flavor and space.

BAGHDAD CAFE RESTAURANT PROJECT

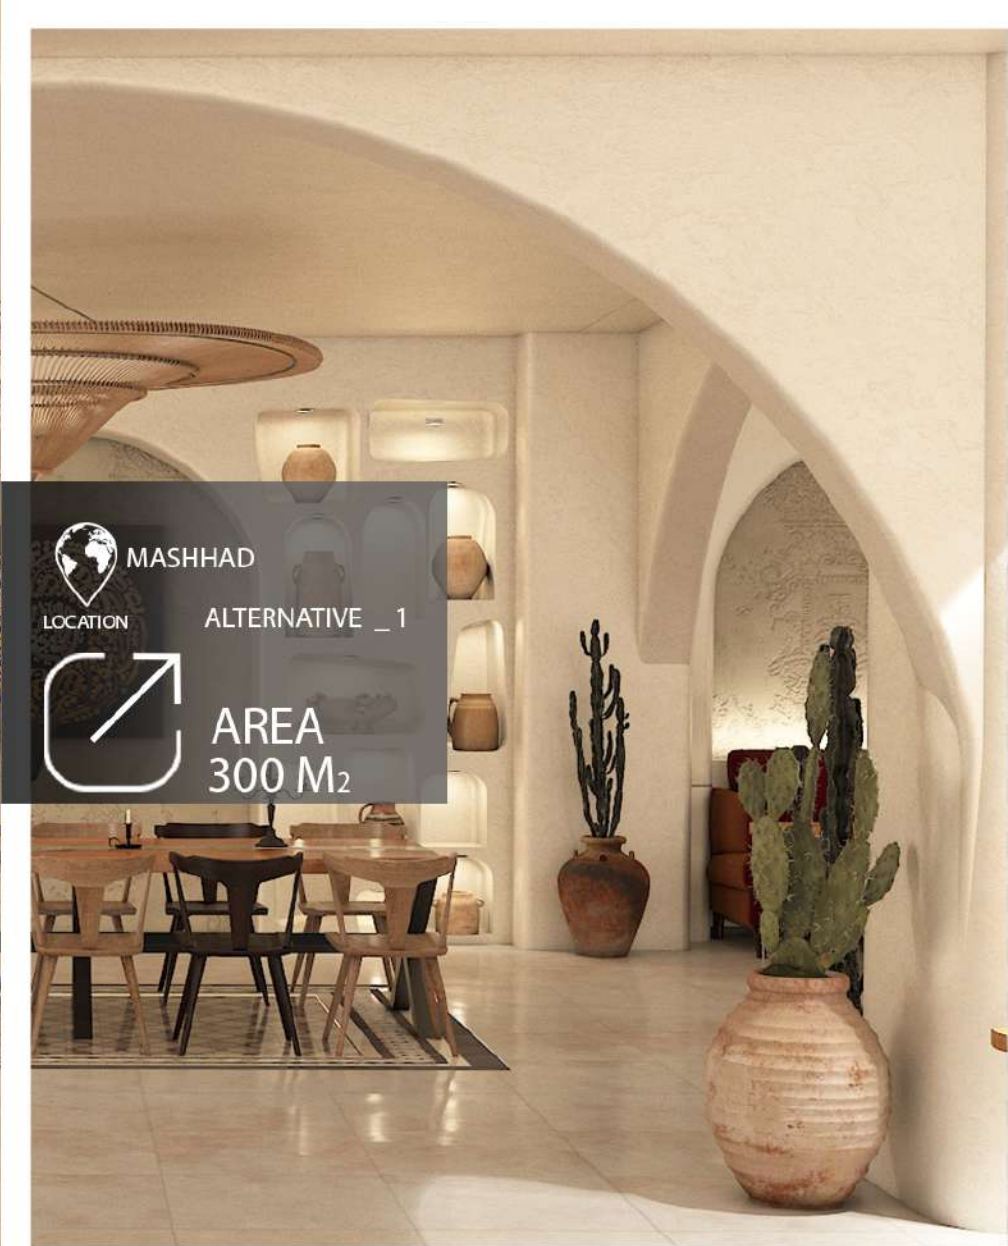

ABOUT PROJECT

Baghdad cafe Restaurant, covering 220 SQ meters, is located in a mid-range area of Baghdad. This establishment was designed to focus on serving traditional cuisine. The design of the space prioritizes not only aesthetics but also the economic and cost-effective use of materials and components.

GANDOM COFFEE SHOP PROJECT

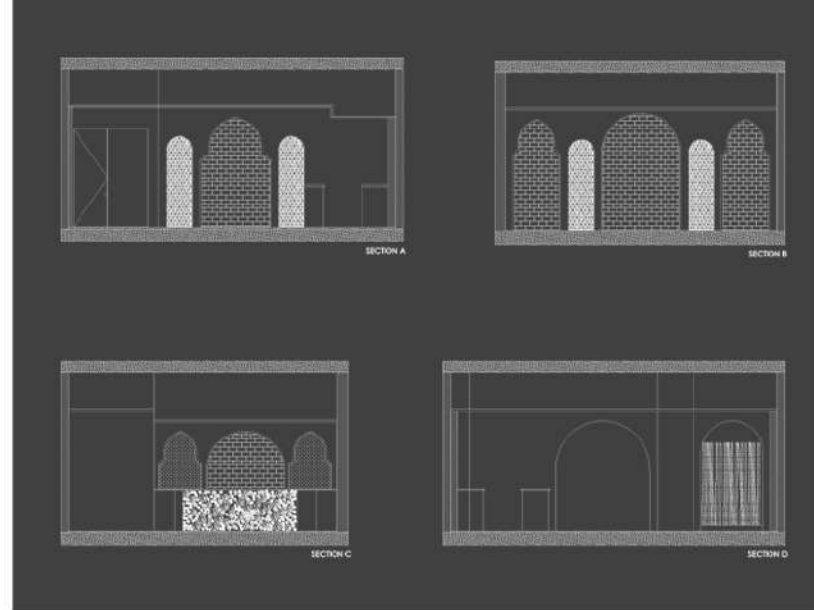

ABOUT PROJECT

Gandom Cafe, a 300-SQ-meter project located in the Hyatt Shargh Hotel, was designed and renovated with a Moroccan-style concept. The space was divided into two sections, a cafe and a fast-food area. While both sections were designed to be compatible, we gave them distinct identities. Two different alternatives were presented for this cafe, and the second alternative was approved by the client .

PASHA CAFFEE SHOP PROJECT

ABOUT PROJECT

This project was the renovation of a 110-SQ-meter cafe and restaurant in Istanbul. The client's request was to create a new atmosphere with minimal changes to the cafes existing structure.

VEAL BURGER PROJECT

ABOUT PROJECT

The design concept for Veal Burger is built around a bold color palette of black, white, and red, reflecting both modern elegance and dynamic energy. The counter serves as a striking focal point, featuring illuminated spheres with the brand's name, creating a memorable visual identity. Inside, geometric patterns, contrasting tones, and accent lighting enhance the dining atmosphere, while the exterior façade showcases strong branding with vibrant red highlights, ensuring high visibility and a powerful presence in the urban landscape.

ICE CAFE PROJECT

ABOUT PROJECT

Ice Cafe Project is a compact 40-SQ-meter space designed with a unique concept. The main idea is inspired by ice and the cafes name, aiming to evoke a sense of cold and winter for the visitors. To create this experience, special and transparent materials in a blue and white color palette were used, resulting in a bright, cool, and captivating atmosphere. The design and execution supervision were carried out by Miras Architectural Studio.
